*ALC Agenda Item 4.1
May 11, 2009*

Memorandum

DATE: April 27, 2009
TO: Administration & Legislation Committee
FROM: Dick Swanson, Director of Finance and Administration
SUBJECT: Proposed FY 2009/2010 Budget

Action Requested:

It is recommended that the Board release the attached proposed draft budget for FY 2009/2010. In this draft budget, total revenues and expenditures are expected to increase from approximately \$54.4 Million in FY 2008/2009 to an estimated \$ 78.7 Million in FY 2009/2010. In large measure, this increase is required to accommodate the deferral of certain project activities that were expected to occur in FY 2008/2009 to FY 2009/2010. In addition, significantly increased construction management and oversight activities by the CMA on the I-80 ICM project as well as design work on the I-880 Southbound HOV Lane extension, the I-580 Westbound HOV Lane and right-of-way acquisition on the I-580 Corridor also drive the higher project revenue and expenditure projections for the coming fiscal year. The administrative component of the proposed FY 2009/2010 budget is being held to a 1.1 percent growth over the previous fiscal year. The ACCMA's staffing has reached an adequate and sustainable level given the anticipated work over the coming year.

Next Steps:

A final FY 2009/2010 Budget and Work Program will be brought to the Board in June.

Discussion:

Following this staff report are three documents that comprise the FY 09/10 Budget. They are:

- 1) The CMA proposed budget for FY 2009/2010 which identifies the revenues and expenses associated with the delivery of the capital projects, planning studies, and programming responsibilities included in both the CIP and Programs and Planning Studies for FY 2009/2010. The proposed budget consists of three distinct elements: They are:
 - a. The Core Functions Budget- This budget includes the revenues and expenses associated with managing and delivering the CMA's "core" or legislatively mandated functions as well as the operating and administrative costs of the ACCMA itself,

- b. The Capital Projects, Planning and Programming Budget- This budget includes all of the staff and consultant costs associated with delivering the projects, programs and planning studies included in the Capital Improvement Program and Programs and Planning Studies documents, and
 - c. The Combined Budget- This budget represents the combination of both the Core Functions and the Capital Projects and Programs Budget.
- 2) A five-year Capital Improvement Program and Programs and Planning Studies report that identifies the expenditures by phase, revenues and funding sources for each of the capital projects, programs or planning studies overseen or sponsored by the CMA. These documents include all federal, state and local grant funded programs and planning efforts currently underway or to be undertaken and managed by the CMA over the next five years.
 - 3) The listings of ACCMA Board approved Transportation Fund for Clean Air (TFCA) projects and active CMA Exchange Projects and CMA-TIP Projects are included for information purposes.

A Work Program that identifies the major milestones that will be occurring in each quarter over the upcoming fiscal year will be included in the June submittal to the ALC and Board. Activities included in the FY 02009/2010 Work Program are still being finalized. The Work Program will include milestones for both capital projects as well as administrative, planning and programming activities undertaken in the next fiscal year.

The Proposed FY 09/10 Budget and Work Program is presented in a different format from previous years. The first significant change is that all revenues and costs associated with complying with a) the CMA's legislatively mandated activities and, b) the administration and management of the CMA itself are presented in the "Core Functions" Budget. Examples of core functions include: updating the Congestion Management Plan, the Countywide Transportation Plan and the Travel Model; completing LOS Monitoring studies; and supporting the Transportation and Land Use Work Program.

The second change involves incorporating all the staff and consultant costs incurred and grant revenues received for delivering the projects and programs included in the CIP into a separate Capital Projects and Programs Budget. The Core Functions Budget and the Capital Projects and Programs Budget are consolidated into a Combined Budget that corresponds to previous years' annual budgets.

As in previous years, the revenues and expenditures associated with capital projects and programs are included as the first year in the Five-Year Capital Improvement Program. The CIP allows the Board to review the annual expected expenditures and revenues for each project and program in which the CMA is participating through FY 2013/2014. The CMA's staff costs to deliver the first year of the CIP, FY 2009/2010, are incorporated into the proposed Capital Projects and Programs and Planning Studies budget for this next fiscal year. In addition, each of the CMA's planning and programming activities, such as updating the Countywide Transportation Plan and STIP Programming, are included in a five year format similar to the CIP which is titled Programs and Planning Studies. This document immediately follows the CIP. Importantly, all of the revenues and expenditures shown in both the CIP and Programs and Planning Studies for FY 2009/2010, inclusive of staff costs, translate directly to line items in the Proposed FY 2009/2010 Budget documents

Budget Highlights

As can be seen from the Proposed Combined Budget for FY 2009/2010, total revenues and expenditures are expected to increase from approximately \$54.4 Million in FY 2008/2009 to an estimated \$78.8 Million in FY 2009/2010. In large measure, this increase is to accommodate the deferral of certain project activities that were expected to occur in FY 2008/2009 to FY 2009/2010. In addition, significantly increased construction management and oversight activities by the CMA on the I-80 ICM project as well as design work on the I-880 Southbound HOV Lane extension, the I-580 Westbound HOV Lane and right-of-way acquisition on the I-580 Corridor also drive the higher project revenue and expenditure for the coming fiscal year. The FY 2008/2009 budget, when originally adopted, included \$61.5 Million in grant revenue. This amount was subsequently adjusted downward, as project delays occurred, to the currently estimated \$53.5 Million, a reduction of \$8.0 Million. The FY 2009/2010 proposed budget includes \$77.3 Million in grant revenue, an increase of \$23.8 Million over the current FY 2008/2009 budget, reflecting both the deferred activity from the current fiscal year along with accelerated project work attributable to additional project revenues from state bond programs. Grants are programmed for the following projects:

<u>Project</u>	<u>\$ Amount in FY 2009/2010</u>
○ I-680 SB HOT Lane (CMIA, ACTIA, Earmark)	\$12,831,415
○ I-80 Integrated Corridor Mobility (CMIA)	11,240,513
○ I-580 San Leandro/Oakland Soundwall Construction	8,113,000
○ I-580 WB HOV Lane	7,750,000
○ I-580 Corridor Right-of-Way	6,761,824
○ I-880 SB HOV Lane Extension (CMIA)	6,000,000
○ I-880 N. Safety and Ops Improvements at 23 rd /29 th (TCIF)	5,900,000

On the Programming and Planning side, a number of significant new activities are anticipated, including initiating new planning studies such as the I-880 Rail Corridor Study, the Bus Rapid Transit Corridor Enhancement Project and the I-80 Gilman Street Interchange Reconfiguration effort. Planning efforts for the Central County Freeway Study will continue with recommended projects to eventually be funded with proceeds from the sale of excess right-of-way in Central County. In addition, the Congestion Management Program update will be completed; the Countywide Bicycle Plan will be updated as will the Countywide Travel Demand model in order to be consistent with ABAG's Projections 09, which is expected to be released in the fall of 2009.

The 2010 Level of Service Monitoring Study will also be conducted. Additional activities will include updating the Annual Performance Report and Mobility Monitor. Lastly, the City of Alameda's Community Based Transportation Plan will also be completed.

Staff spent considerable effort in FY 2007/2008 obtaining the necessary authorizations and funding agreements to ensure that the required project development work could proceed on schedule in the current fiscal year, FY 2008/2009. During budget deliberations in FY 2007/2008, the Board had authorized an ACCMA staffing increase to a total of 28 positions to accommodate the additional Infrastructure Bond work. To date, 25 positions are filled and no additional staffing additions are contemplated.

The administrative component of the ACCMA's proposed FY 2008/2009 budget is being held to a 1.1 percent growth over last fiscal year. During FY 2008/2009, significant reductions in administrative and overhead costs were accomplished the areas of employee benefits, office expenses and in the use of temporary employees. The ACCMA's staffing has reached an adequate and sustainable level, given the anticipated work over the next year or so.
